

SPRAY AIR FILTER OIL

EXCELLENT ADHESION

Description

Specially developed for synthetic filter elements. Moto cross tested. Prevents penetration of sand, dust and water. Guarantees optimum air permeability. Excellent adhesion.

Advantages

- excellent adhesion
- moto cross tested

Use

Thoroughly clean filter element with AIR FILTER CLEANER, then wash out with water. Wring out filter carefully and let it dry. Spray evenly with MOTOREX AIR FILTER OIL from a distance of approx. 20cm /8 inch. The filter must be blue but the oil must not drip off.

Contents

750 ml
