

CARBURETOR SPRAY

Cleaning agent for carburetors

Description

Cleans air passages, inlet flaps, Venturi tubes, adjustment screw seats and carburettor housings. Suitable for all types of carburettor. Tested and found suitable for use in catalytic converters.

Field of application

MOTOREX CARBURETOR CLEAN SPRAY is perfect for cleaning air passages, inlet flaps, Venturi tubes, adjustment screw seats and carburettor housings of all two-stroke and four-stroke petrol engines.

Application

Remove air filter and spray into the suction pipe. Start the engine and then spray onto throttle valves, air nozzles, air lines etc. Press the accelerator intermittently.

Advantages

- cleaning
- suitability for use with catalytic converters checked
- suitable for all types of carburettor

Notes

Shake can before use.
