BRENNTAG **ConnectingChemistry** SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006 ALKYLATE GASOLINE 2S RELIANT / CAN 5 L Version 3.0 Print Date 09.03.2022 Revision date / valid from 06.10.2021 SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1. Product identifier Trade name : ALKYLATE GASOLINE 2S RELIANT / CAN 5 L UFI : FHS3-70KY-500C-N6MR : Germany, Denmark, Finland, Norway, Sweden UFI code notified in 1.2. Relevant identified uses of the substance or mixture and uses advised against Use of the Fuel • Substance/Mixture Uses advised against : At this moment we have not identified any uses advised against 1.3. Details of the supplier of the safety data sheet Brenntag Nordic AB Company : Hyllie Stationstorg 31 SE 215 32 Malmö : +46 (0)40-28 73 00 Telephone : +46 (0)40-93 7015 Telefax E-mail address : SDS.SE@brenntag-nordic.com : Environment & Quality Responsible/issuing person 1.4. Emergency telephone number Emergency telephone In case of personal injury call: number Denmark: 82 12 12 12 Giftlinien, Bispebjerg Hospital Finland: Poison Information Centre: (09) 471 977 (direct) or (09) 47 11 (exchange), open 24h/dav Norway: 22 59 13 00 Giftinformasjonen (døgnåpent) Sweden: +46-8-331231 Giftinformationscentralen (24 hour service) Outside these countries: Please call your local emergency services **SECTION 2: Hazards identification** 2.1. Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008

ALKYLATE GASOLINE 2S RELIANT / CAN 5 L

Hazard class	Hazard category	Target Organs	Hazard statements
Flammable liquids	Category 1		H224
Aspiration hazard	Category 1		H304
Skin irritation	Category 2		H315
Specific target organ toxic - single exposure	category 3	Central nervous system	H336
Long-term (chronic) aqua hazard	tic Category 2		H411
Most important adverse		this Section, see Section	16.
	effects : Vapours may caus have narcotic effect Skin irritation Splash in the eyes Cause pain in mou headache and risk ingestion or vomitir	e irritation, headache, diz ts and other central nerve may cause discomfort. th and throat, nausea, vo of unconsciousness., Alr ng of small quantities may b breathing. Chemical pre	ziness and may ous effects. miting, dizziness, eady after / cause cough and

ALKYLATE GASOLINE 2S RELIANT / CAN 5 L

Precautionary statements			
General	:	P102	Keep out of reach of children.
Prevention	:	P210	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
		P273	Avoid release to the environment.
Response	:	P301 + P310	IF SWALLOWED: Immediately call a POISON CENTER/doctor.
		P331	Do NOT induce vomiting.
Disposal	:	P501	Dispose of contents/ container in accordance with the local regulations.

Hazardous components which must be listed on the label:

• Naphtha (petroleum), full-range alkylate, butane-contg.; Low boiling point modified naphta

• Hydrocarbons, C≥5, C5-6-rich

2.3. Other hazards

For Results of PBT and vPvB assessment see section 12.5.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

			••	sification (EC) No 1272/2008)

For the full text of the H-Statements mentioned in this Section, see Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

	If inhaled	: Keep patient warm and at rest. Consult a physician after significant exposure.
	In case of skin contact	: Wash off with soap and water.
	In case of eye contact	: Rinse thoroughly with plenty of water, also under the eyelids. Consult a physician.
	If swallowed	: Never give anything by mouth to an unconscious person. If a person vomits when lying on his back, place him in the recovery position. Call a physician immediately.
4.2.	Most important symptoms	and effects, both acute and delayed
	Symptoms	: See Section 11 for more detailed information on health effects and symptoms.
	Effects	: See Section 11 for more detailed information on health effects and symptoms.
4.3.	Indication of any immedia	te medical attention and special treatment needed
	Treatment	: No information available.
SEC	TION 5: Firefighting mea	sures
5.1.	Extinguishing media	
	Suitable extinguishing media	: powder, Foam, Carbon dioxide (CO2)
	Unsuitable extinguishing media	: High volume water jet
5.2.	Special hazards arising free	om the substance or mixture
	Specific hazards during firefighting	: Extremely flammable. Vapours are heavier than air and may spread along floors. Vapours may form explosive mixtures with air.
5.3.	Advice for firefighters	
	Special protective equipment for firefighters	: In the event of fire, wear self-contained breathing apparatus.
	Further advice	: Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in

600000003642 / Version 3.0

ALKYLATE GASOLINE 2S RELIANT / CAN 5 L

accordance with local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal precautions : Evacuate personnel to safe areas. For personal protection see section 8.

6.2. Environmental precautions

Environmental : Do not flush into surface water or sanitary sewer system. In case of large spillage contact the local authority.

6.3. Methods and materials for containment and cleaning up

Methods and materials for containment and cleaning	: Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth,
up	vermiculite) and place in container for disposal according to local / national regulations (see section 13).

6.4. Reference to other sections

See Section 1 for emergency contact information. See Section 8 for information on personal protective equipment. See Section 13 for waste treatment information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Advice on safe handling	: Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Provide for good ventilation. Mechanical ventilation can be needed. Emergency eye wash fountains and emergency showers should be available in the immediate vicinity.	
Hygiene measures	: Wash hands before breaks and immediately after handling the product. Smoking, eating and drinking should be prohibited in the application area.	
7.2. Conditions for safe storage	e, including any incompatibilities	
Requirements for storage areas and containers	: Containers which are opened must be carefully resealed and kept upright to prevent leakage. Keep locked up. Store in a place accessible by authorized persons only. Keep container tightly closed in a dry and well-ventilated place.	
Advice on protection against fire and explosion	: Take precautionary measures against static discharges. Keep away from sources of ignition - No smoking.	
Advice on common storage	: Keep away from food, drink and animal feedingstuffs.

Hazardous decomposition : No decomposition if stored and applied as directed. products

SECTION 11: Toxicological information

11.1. Information on toxicological effects

	Acute toxicity	
	Oral	
	Cause pain in mouth and throat, nausea, vomiting, dizziness, headache and risk of unconsciousness., Already after ingestion vomiting of small quantities may cause cough and possibly difficulty in breathing. Chemical pneumonia may occur in the course of a day.	or
	Inhalation	
	Vapours may cause irritation, headache, dizziness and may hav narcotic effects and other central nervous effects.	е
	Dermal	
	Please find this information in the listing of the component/components below in this section.	
	Skin	
Result	: Causes skin irritation.	
	Eyes	
Result	: Splash in the eyes may cause discomfort.	
	Sensitisation	
Result	: Please find this information in the listing of the component/components below in this section.	
	CMR effects	
	CMR Properties	
Carcinogenicity Mutagenicity	 Please find this information in the listing of the component/components below in this section. Please find this information in the listing of the

ALKYLATE GASOLINE 2S RELIANT / CAN 5 L

SECTION 16: Other information

Full text of H-Statements referred to under sections 2 and 3.H224Extremely flammable liquid and vapour.H304May be fatal if swallowed and enters airways.H315Causes skin irritation.H336May cause drowsiness or dizziness.

H411 Toxic to aquatic life with long lasting effects.

Abbreviations and Acronyms

BCF	bioconcentration factor	
BOD		
CAS	biochemical oxygen demand Chemical Abstracts Service	
CLP		
CLF	Classification, Labelling and Packaging	
	carcinogenic, mutagenic or toxic to reproduction	
COD	chemical oxygen demand	
DNEL	derived no-effect level	
EINECS	European Inventory of Existing Commercial Chemical Substance	es
ELINCS	European List of Notified Chemical Substances	
GHS	Globally Harmonized System of Classification and Labelling of Chemicals	
LC50	median lethal concentration	
LOAEC	lowest observed adverse effect concentration	
LOAEL	lowest observed adverse effect level	
LOEL	lowest observed effect level	
NLP	no-longer polymer	
NOAEC	no observed adverse effect concentration	
NOAEL	no observed adverse effect level	
NOEC	no observed effect concentration	
NOEL	no observed effect level	
OECD	Organisation for Economic Cooperation and Development	
OEL	occupational exposure limit	
PBT	persistent, bioaccumulative and toxic	
REACH Auth. No.:	REACH Authorisation Number	
REACH AuthAppC. No.	REACH Authorisation Application Consultation Number	
PNEC	predicted no-effect concentration	
STOT	specific target organ toxicity	
SVHC	substance of very high concern	
UVCB	substance of unknown or variable composition, complex reactio products or biological materials	n
vPvB	very persistent and very bioaccumulative

ALKYLATE GASOLINE 2S RELIANT / CAN 5 L

Key literature references and sources for data	:	Supplier information and data from the "Database of registered substances" of the European Chemicals Agency (ECHA) were used to create this safety data sheet.
Methods used for product classification Hints for trainings	:	The classification for human health, physical and chemical hazards and environmental hazards were derived from a combination of calculation methods and if available test data. The workers have to be trained regularly on the safe handling of the products based on the information provided in the Safety Data Sheet and the local conditions of the workplace. National regulations for the training of workers in the handling of hazardous materials must be adhered to.
Other information	:	The information provided in this Safety Data Sheet is correct to our knowledge at the date of its revision. The information given only describes the products with regard to safety arrangements and is not to be considered as a warranty or quality specification and does not constitute a legal relationship. The information contained in this Safety Data Sheet relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process unless specified in
		any other material or in any process, unless specified in the text.
